Four Chicago-born artists, Larry Bell, Karl Stanley Benjamin, Ernest Benkert and Clara Skinner, are among the artists represented in THE RESPONSIVE EYE exhibition which opened at The Museum of Modern Art in New York on February 25. The exhibition, documenting a widespread and powerful new direction in contemporary art, brings together more than 120 paintings and constructions by 99 artists from some 15 countries.

Mr. and Mrs. Edgar B. Miller of Chicago have loaned a work by Agam, "Five Themes: Polyphonic Composition" (1962-63), an oil painting on bronze. Agam, an Israeli, born Yaacov Gipstein, is a resident of Paris.

William C. Seitz, director of the exhibition, points out that these works exist less as objects to be examined than as generators of perceptual responses in the eye and mind of the viewer. Using only lines, bands and patterns, flat areas of color, white, gray or black or cleanly cut wood, glass, metal and plastic, perceptual artists establish a new relationship between the observer and a work of art. These new kinds of subjective experiences, which result from the simultaneous contrast of colors, after-images, illusions and other optical devices, are entirely real to the eye even though they do not exist physically in the work itself. Each observer sees and responds somewhat differently.

Mr. Bell, who is 25 and the youngest of the Chicago-born artists, is represented by a glass and metal construction. He now lives in Los Angeles. Mr. Benjamin, now a resident of Claremont, California, and Mr. Benkert, who now lives in New York City, born in 1925 and 1928, respectively, each have an oil painting in the show. A serigraph on glass and plastic by Miss Skinner is on view. Miss Skinner, born in 1915, now resides in Easthampton, Connecticut.
SPECIAL TO CLEVELAND NEWSPAPERS

Cleveland artists Edwin Mieczkowski and Julian Stanczak are among the artists represented in THE RESPONSIVE EYE exhibition which opened at The Museum of Modern Art in New York on February 25. The exhibition, documenting a widespread and powerful new direction in contemporary art, brings together more than 120 paintings and constructions by 99 artists from some 15 countries.

William C. Seitz, director of the exhibition, points out that these works exist less as objects to be examined than as generators of perceptual responses in the eye and mind of the viewer. Using only lines, bands and patterns, flat areas of color, white, gray or black or cleanly cut wood, glass, metal and plastic, perceptual artists establish a new relationship between the observer and a work of art. These new kinds of subjective experiences, which result from the simultaneous contrast of colors, after-images, illusions and other optical devices, are entirely real to the eye even though they do not exist physically in the work itself. Each observer sees and responds somewhat differently.

Mr. Mieczkowski, who was born in Pittsburgh in 1929, is represented in the exhibition by a black and white painting of 1964 entitled "Fuseli's Box." Mr. Stanczak, who was born in Poland in 1928, immigrated to the United States in 1950, when he began his studies at the Cleveland Institute of Art where he now teaches. His canvas "Ulterior Images" of 1962 is on view in the show.

The exhibition is accompanied by a 56-page catalog by Mr. Seitz. Illustrated with 43 works, 12 in color, the catalog is available from the Museum for $1.95.

THE RESPONSIVE EYE will remain on view in New York through April 25, at which time it will travel to St. Louis, Seattle, Pasadena and Baltimore.
Paul Feeley, who was born in Des Moines in 1913, is among the artists represented in THE RESPONSIVE EYE exhibition which opened at The Museum of Modern Art in New York on February 25. The exhibition, documenting a widespread and powerful new direction in contemporary art, brings together more than 120 paintings and constructions by 99 artists from some 15 countries.

William C. Seitz, director of the exhibition, points out that these works exist less as objects to be examined than as generators of perceptual responses in the eye and mind of the viewer. Using only lines, bands and patterns, flat areas of color, white, gray or black or cleanly cut wood, glass, metal and plastic, perceptual artists establish a new relationship between the observer and a work of art. These new kinds of subjective experiences, which result from the simultaneous contrast of colors, after-images, illusions and other optical devices, are entirely real to the eye even though they do not exist physically in the work itself. Each observer sees and responds somewhat differently.

Mr. Feeley is represented in the show by a canvas of 1964 entitled "Almiam," owned by the well-known architect Philip C. Johnson. Mr. Feeley, a resident of Vermont, has taught painting at Bennington College since 1940.

The exhibition is accompanied by a 56-page catalog by Mr. Seitz. Illustrated with 43 works, 12 in color, the catalog is available from the Museum for $1.95.

THE RESPONSIVE EYE will remain on view in New York through April 25, at which time it will travel to St. Louis, Seattle, Pasadena and Baltimore.

Photographs and additional information available from Elizabeth Shaw, Director, and Linda Goldsmith, Assistant, Department of Public Information, The Museum of Modern Art, 11 West 53 Street, New York, N. Y. 10019. Circle 5-8900.
Frederick Hammersley, who was born in Salt Lake City in 1919, is among the artists represented in THE RESPONSIVE EYE exhibition which opened at The Museum of Modern Art in New York on February 25. The exhibition, documenting a widespread and powerful new direction in contemporary art, brings together more than 120 paintings and constructions by 99 artists from some 15 countries.

These new kinds of subjective experiences, which result from the simultaneous contrast of colors, after-images, illusions and other optical devices, are entirely real to the eye even though they do not exist physically in the work itself. Each observer sees and responds somewhat differently.

Miss Fuller, who was born in 1914, is represented by a polypropylene thread and plexiglas construction entitled "String Composition Number 119" (1964). She is now a resident of New York City. Mr Mieczkowski's black and white painting, "Fuseli's Box" (1964), is on view in the show. Born in 1929, he now lives in Cleveland. Both of the artists were students at Carnegie Institute of Technology (in 1936 & 1959, respectively).

The exhibition is accompanied by a 56-page catalog by Mr. Seitz. Illustrated with 43 works, 12 in color, the catalog is available from the Museum for $1.95.

THE RESPONSIVE EYE will remain on view in New York through April 25, at which time it will travel to St. Louis, Seattle, Pasadena and Baltimore.

Photographs and additional information available from Elizabeth Shaw, Director, and Linda Goldsmith, Assistant, Department of Public Information, The Museum of Modern Art, 11 West 53 Street, New York, N.Y. 10019. Circle 5-8900.
Lorser Feitelson, born in Savannah in 1898, is among the artists represented in THE RESPONSIVE EYE exhibition which opened at The Museum of Modern Art in New York on February 25. The exhibition, documenting a widespread and powerful new direction in contemporary art, brings together more than 120 paintings and constructions by 99 artists from some 15 countries.

William C. Seitz, director of the exhibition, points out that these works exist less as objects to be examined than as generators of perceptual responses in the eye and mind of the viewer. Using only lines, bands and patterns, flat areas of color, white, gray or black or cleanly cut wood, glass, metal and plastic, perceptual artists establish a new relationship between the observer and a work of art. These new kinds of subjective experiences, which result from the simultaneous contrast of colors, after-images, illusions and other optical devices, are entirely real to the eye even though they do not exist physically in the work itself. Each observer sees and responds somewhat differently.

Mr. Feitelson is represented in the exhibition by a canvas painted with oils and enamel in 1964 entitled "Hard-Edge Line Painting." He is now a resident of Los Angeles.

The exhibition is accompanied by a 56-page catalog by Mr. Seitz. Illustrated with 53 works, 12 in color, the catalog is available from the Museum for $1.95.

THE RESPONSIVE EYE will remain on view in New York through April 25, at which time it will travel to St. Louis, Seattle, Pasadena and Baltimore.

Photographs and additional information available from Elizabeth Shaw, Director, and Linda Goldsmith, Assistant, Department of Public Information, The Museum of Modern Art, 11 West 53 Street, New York, N. Y. 10019. Circle 5-8900.
Mr. and Mrs. James H. Clark of Dallas have loaned two works by Josef Albers to THE RESPONSIVE EYE exhibition which opened at The Museum of Modern Art in New York on February 25. The exhibition, documenting a widespread and powerful new direction in contemporary art, brings together more than 120 paintings and constructions by 99 artists from some 15 countries.

William C. Seitz, director of the exhibition, points out that these works exist less as objects to be examined than as generators of perceptual responses in the eye and mind of the viewer. Using only lines, bands and patterns, flat areas of color, white, gray or black or cleanly cut wood, glass, metal and plastic, perceptual artists establish a new relationship between the observer and a work of art. These new kinds of subjective experiences, which result from the simultaneous contrast of colors, after-images, illusions and other optical devices, are entirely real to the eye even though they do not exist physically in the work itself. Each observer sees and responds somewhat differently.

The works on loan from the Clarks are black engravings on plastic entitled "JHC I" and "JHC II" both of 1963.

The exhibition is accompanied by a 56-page catalog by Mr. Seitz. Illustrated with 43 works, 12 in color, the catalog is available from the Museum for $1.95.

THE RESPONSIVE EYE will remain on view in New York through April 25, at which time it will travel to St. Louis, Seattle, Pasadena and Baltimore.

Photographs and additional information available from Elizabeth Shaw, Director, and Linda Goldsmith, Assistant, Department of Public Information, The Museum of Modern Art, 11 West 53 Street, New York, N.Y. 10019. Circle 5-8900.

William C. Seitz, director of the exhibition, points out that these works exist less as objects to be examined than as generators of perceptual responses in the eye and mind of the viewer. Using only lines, bands and patterns, flat areas of color, white, gray or black or cleanly cut wood, glass, metal and plastic, perceptual artists establish a new relationship between the observer and a work of art. These new kinds of subjective experiences, which result from the simultaneous contrast of colors, after images, illusions and other optical devices, are entirely real to the eye even though they do not exist physically in the work itself. Each observer sees and responds somewhat differently.

Mr. Lamis is represented in the exhibition by a plexiglas construction of 1964 entitled "Number 16." He is now a resident of Terre Haute, Indiana.

The exhibition is accompanied by a 56 page catalog by Mr. Seitz. Illustrated with 43 works, 12 in color, the catalog is available from the Museum for $1.95.

THE RESPONSIVE EYE will remain on view in New York through April 25, at which time it will travel to St. Louis, Seattle, Pasadena and Baltimore.

Connecticut artists Josef Albers, Walter Bannard and Clara Skinner are among the artists represented in THE RESPONSIVE EYE exhibition which opened at The Museum of Modern Art in New York on February 25. The exhibition, documenting a widespread and powerful new direction in contemporary art, brings together more than 120 paintings and constructions by 99 artists from some 15 countries.

William C. Seitz, director of the exhibition, points out that these works exist less as objects to be examined than as generators of perceptual responses in the eye and mind of the viewer. Using only lines, bands and patterns, flat areas of color, white, gray or black or cleanly cut wood, glass, metal and plastic, perceptual artists establish a new relationship between the observer and a work of art. These new kinds of subjective experiences, which result from the simultaneous contrast of colors, after-images, illusions and other optical devices, are entirely real to the eye even though they do not exist physically in the work itself. Each observer sees and responds somewhat differently.

Mr. Albers, "the father of 'op art'" is represented in the exhibition by six oil paintings of his well-known squares dated from 1957 to 1964 and two engravings on plastic of 1963. Mr. Bannard, who was born in New Haven in 1934 has a canvas entitled "Green Step" (1963) on view. He is now a resident of Princeton, New Jersey. Miss Skinner's work, a serigraph on glass and plastic, of 1964 called "Number 5" is in the show. She was born in Chicago in 1915 and now lives in Easthampton, Connecticut.

Two works in the exhibition are on loan from the Larry Aldrich Collection in Ridgefield: Tony DeLap's metal and canvas constructions "Magpie" (1963) and Bridget Riley's painting "Hesitate" (1964). Mr. DeLap, who was born in Oakland, California, in 1927, now lives in San Francisco. Miss Riley, who is 34 years old, was born and lives in London, England.

1. ALBERS - "WONDERING"
2. BANNARD - "GREEN STEP"
3. ALBERS - "WHITE CORE"
4. ALBERS - "WHITE CORE"

Four Vermont artists, Paul Feeley, Francis Ray Hewitt, Kenneth Noland and Peter Anthony Stroud, are among the artists represented in THE RESPONSIVE EYE exhibition which opened at The Museum of Modern Art in New York on February 25. The exhibition, documenting a widespread and powerful new direction in contemporart art, brings together more than 120 paintings and constructions by 99 artists from some 15 countries.

William C. Seitz, director of the exhibition, points out that these works exist less as objects to be examined than as generators of perceptual responses in the eye and mind of the viewer. Using only lines, bands and patterns, flat areas of color, white, gray or black or cleanly cut wood, glass, metal and plastic, perceptual artists establish a new relationship between the observer and a work of art. These new kinds of subjective experiences, which result from the simultaneous contrast of colors, after-images, illusions and other optical devices, are entirely real to the eye even though they do not exist physically in the work itself. Each observer sees and responds somewhat differently.

Mr. Feeley, who has been teaching painting at Bennington College since 1940, is represented in the exhibition by a canvas of 1964 entitled "Alniam". He was born in Des Moines, Iowa, in 1913. Mr. Stroud, an Englishman born in 1921, has a painting called "Orange Circumvent with Yellow" (1964) on view. He is also an instructor at Bennington. Mr. Noland, who lives in South Shaftsbury, is represented by a canvas "And Again" of 1964. He was born in Asheville, North Carolina, in 1924. Mr. Hewitt's oil painting "Abe's Box" of 1964 is in the exhibition. He was born in Springfield, Vermont, in 1936 and now resides in Amsterdam.

The exhibition is accompanied by a 56-page catalog by Mr. Seitz. Illustrated with 53 works, 12 in color, the catalog is available from the Museum for $1.95.
Eight artists of the Los Angeles area, Larry Bell, Karl Stanley Benjamin, Lorser Feitelson, John Goodyear, Frederick Hammersley, Robert Irwin, John McLaughlin and Robert Stevenson, are among the artists represented in THE RESPONSIVE EYE exhibition which opened at The Museum of Modern Art in New York on February 25. The exhibition, documenting a widespread and powerful new direction in contemporary art, brings together more than 120 paintings and constructions by 99 artists from some 15 countries.

William C. Seitz, director of the exhibition, points out that these works exist less as objects to be examined than as generators of perceptual responses in the eye and mind of the viewer. Using only lines, bands and patterns, flat areas of color, white, gray or black or cleanly cut wood, glass, metal and plastic, perceptual artists establish a new relationship between the observer and a work of art. These new kinds of subjective experiences, which result from the simultaneous contrast of colors, after-images, illusions and other optical devices, are entirely real to the eye even though they do not exist physically in the work itself. Each observer sees and responds somewhat differently.

Mr. Bell is represented in the exhibition by "Glass Sculpture Number 10" of 1961. He was born in Chicago in 1939 and now resides in Los Angeles. Mr. Benjamin, who was also born in Chicago, has an oil painting of 1961 entitled "Number 27" on view. He was born in 1925 and lives in Claremont. Mr. Feitelson is represented by a work called "Hard-Edge Line Painting" (1961). He was born in Savannah, Georgia, in 1913 and now resides in Los Angeles. Mr. Goodyear, who was born in Southgate, California, in 1930, has a work of 1961 entitled "Color Block" in the show. He is now a resident of Lebanon, New Jersey. Mr. Hammersley's oil painting "That, Number 396" of 1961 is on view. He was born in Salt Lake City, Utah, in 1919, and now lives in Los Angeles. Mr Irwin is represented by a large (7' x 6'11") untitled oil painting of 1963. He was born in
Long Beach in 1923 and also a resident of Los Angeles. John McLaughlin, who
was born in Sharon, Massachusetts, in 1893, has an oil painting of 1962 in the show.
He now lives in Dana Point, California. Mr. Stevenson is represented by a plexiglas
construction of 1963 called "Optical Construction Number 2". He was born in San
Diego in 1924 and now resides in Los Angeles.

The exhibition is accompanied by a 56-page catalog by Mr. Seitz. Illustrated
with 43 works, 12 in color, the catalog is available from the Museum for $1.95.

THE RESPONSIVE EYE will remain on view in New York through April 25, at which
time it will travel to St. Louis, Seattle, Pasadena and Baltimore.
